

Tellabs® Product-Specific Terms and Conditions

1. Applicability

Unless otherwise agreed in writing, the following terms and conditions, in addition to Tellabs Standard Terms and Conditions, available at <http://www.tellabs.com/legal/deliverableterms.shtml> or upon request (collectively, the “Agreement”) shall apply to the purchase, sale and licensing of applicable Tellabs products. Notwithstanding the foregoing, software generally known as “open source software” is not licensed pursuant to the license grants of the Tellabs Standard Terms and Conditions, but is provided solely under its own applicable license terms, in accordance with the licenses set forth below.

The copyright owners of such software disclaim all warranties and conditions, express and implied, including warranties or conditions of title and non-infringement, and implied warranties or conditions of merchantability and fitness for a particular purpose; and all liability for damages, including direct, indirect, special, incidental and consequential damages, such as lost profits; any provisions which differ are offered by Tellabs alone and not by the copyright owners.

This product operates with software from SNMP Research International, Inc., including, but not limited to, BRASS Management Application Development Kit in Binaries for one of either Windows or Red Hat Linux Operating Systems and BRASS Server Binary for one of either Windows or Red Hat Linux Operating Systems. Licensee is only permitted to use or access the version for which it has paid Tellabs a license fee, and to make only the number of copies for which licensee has paid Tellabs a license fee. Licensee shall not make copies of the accessed SNMP software without providing written notice of such copies made to Tellabs. Tellabs has the right to audit the licensee to ensure that licensee reports the proper number of copies of the Licensed Modules accessed or made.

This product operates with certain software (“Programs”) provided by Sybase which, in addition to the standard Tellabs license terms, are subject to the following additional terms as required by Sybase, **if end user obtains the Programs from Tellabs rather than procuring the Programs directly from Sybase:**

The End-User is only granted a non-exclusive, non-transferable right to use the Programs for its own internal business purposes, except End-User may assign the sublicense for the use of the Programs in their entirety, upon written notice to Sybase, to the single surviving entity as a result of a merger, acquisition or reorganization of all or substantially all of the End-User’s assets or stock if (a) such entity is not a direct or indirect competitor of Sybase and such entity’s rights to Use the Program shall be limited to the same purposes as the original usage. The-End User may only use the Programs with and as part of the software licensed by Tellabs to End-User (together the “Application Bundle”), and is prohibited from using the Programs for application development purposes or on a standalone basis.

The End User’s use of the Programs shall be restricted to the number of CPUs, Seats, Servers, Standalone Seats, and/or Concurrent Users (as applicable) equal to the respective number of CPU/Seat/Server/ Standalone Seat/Concurrent User/Development and Testing/Standby Server, Standby Concurrent User/Standby CPU Licenses purchased by the End-User, as indicated in the End-User Order.

The End-User shall be prohibited from (a) sublicensing, timesharing, rental, facility management, or service bureau use of the Programs; and (b) permitting third parties to remotely access and use the Program, as incorporated within the Application Bundle, over the internet, unless Partner has paid Sybase the applicable fees for any such usage of the Programs. “Service bureau” shall mean an arrangement pursuant to which (i) third parties are permitted to access and use the Programs, as incorporated within the Application Bundle, directly or indirectly by any means to process their own data; or (ii) the End-User uses the Programs, as incorporated within the Application Bundle, to process the data of any third party.

Sybase retains title to the Programs, and all copies thereof, and associated intellectual property rights therein. The End-User may not copy the Programs, except for inactive backup and archival purposes, and must include on any copy of a Programs all copyright, government restricted rights and other proprietary notices or legends included on the Programs when it was shipped to such End-User.

Sybase and its licensors shall not be responsible for any direct, indirect, incidental, special and consequential damages. Upon termination of the end-user license, the End-User shall destroy or return all copies of the Programs.

Tellabs shall have the right to conduct and/or direct an independent accounting firm to conduct, during normal business hours, an audit of the appropriate records of the End-User to verify compliance with the terms of the End-User License Agreement.

Internet Users under a CPU License model are prohibited from using the Programs to develop or modify applications or perform other programming tasks.

End-User will provide Sybase and Tellabs with prompt written notice of any third party claim, or suit against End-User regardless of its nature, which involves a Program, or a Program combined, operated or used with software and/or hardware not delivered by Sybase, and End-User shall provide Sybase and Tellabs with all information known to End-User relating thereto.

Sybase is an intended third party beneficiary of this End-User License Agreement and may enforce it directly against the End-User as to the Programs.

The Programs contain third party software which is subject to additional or different terms than the proprietary portion of the Programs. The applicable product specific terms for these releases and later releases can be found at the following website: <http://www.sybase.com/softwarelicenses/productsspecificlicenseterms> and the specified versions of the following Programs are those whose license terms apply: Adaptive Server Enterprise – Enterprise Edition (EE) and Small Business Edition (SBE) http://www.sybase.com/files/Legal_Docs/Sybase_ASE_v15.0.x_AllEditions_PSLT.pdf, http://www.sybase.com/files/Legal_Docs/ASE-v15.5.x-All-Editions-PSLT.pdf Adaptive Server Enterprise EE - Disaster Recovery Package http://www.sybase.com/files/Legal_Docs/ASE-Disaster-Recovery-Option-v15.x-PSLT.pdf http://www.sybase.com/files/Legal_Docs/ASE-Disaster-Recovery-Option-v15.1.x-PSLT.pdf http://www.sybase.com/files/Legal_Docs/ASE-Disaster-Recovery-Option-v15.2.x-PSLT.pdf http://www.sybase.com/files/Legal_Docs/PSLT_Adaptive_Server_Enterprise_Disaster_Recovery_Option_v15.5.x.PDF
