

# Flexible training options educate staff to expertly plan, implement and support your network

Advances in network technology and equipment continually increase the performance and reliability of your infrastructure. But it's people with the right knowledge and expertise who keep the network running. That's why Tellabs Training Services offers a variety of training programs to keep your staff up to date to support all phases of your network's life cycle.

With the right training, your staff is more productive and able to confidently resolve technical issues on their own. Tellabs Training Services offers courses that meet the needs of the range of network professionals who plan, build and operate your network.

Your customers have high expectations for how your network delivers their critical services and applications. Tellabs Training Programs ensure that your staff has the expertise they need to boost network performance and availability.

## Tellabs Training Programs

JOB ROLES	<ul style="list-style-type: none"> <li>▪ Network Architects</li> <li>▪ Network Design Consultants</li> <li>▪ Technical Sales Staff</li> </ul>	<ul style="list-style-type: none"> <li>▪ Network Deployment and Support Staff</li> <li>▪ Maintenance Technicians</li> </ul>	<ul style="list-style-type: none"> <li>▪ Technical Support Staff</li> <li>▪ Network Architects</li> <li>▪ Technical Sales Staff</li> </ul>

## Flexible training delivery options to meet your needs

Tellabs Training Services works with you to determine which training delivery options best meet the needs of your organization.

### TRAINING OPTIONS

<b>Tellabs Training Center</b>	Hands-on classroom training with Tellabs equipment guided by an instructor
<b>Tellabs eLearning Modules</b>	Self-paced online training courses
<b>Tellabs Lab Connect</b>	Hands-on training at your site connected remotely to a Tellabs lab
<b>Tellabs Virtual Delivery</b>	Interaction with an instructor on a whiteboard via the Internet

### Custom Training

Tellabs Training Services can create a customized blend of training at the Tellabs Training Center, on-site at your facility and online training to meet your specific requirements and staff availability.

### Sandbox Online Lab Environment

After completing Tellabs Training, further practice your hands-on skills by remotely connecting to equipment in the Tellabs Training Lab. The Sandbox learning environment is an online setting for your staff to hone their practical skills while keeping your lab equipment available for customer demos and other sales-related activities.
